

COMPACT GRAIN - A/O

Longer Life Than Standard A/O

Characteristics/Applications		Materials		Tool Selector
<ul style="list-style-type: none"> • Much longer life than traditional A/O discs • Blending and polishing leaving a uniform finish • Edge breaking, surface leveling • First option when tool changeover is a concern 		<ul style="list-style-type: none"> ● Ferrous ● Non-Ferrous ○ Stainless ◐ Composites

4" available Type "R" and Type "S".

RIGID KUT A/O

Characteristics/Applications	Materials	Tool Selector
<ul style="list-style-type: none"> • Our most firm disc, as stiff as a fibre disc with better grain retention • Tackles aggressive deburring where other discs shred • Deburrs interrupted cuts such as drilled holes and channels • First choice when edge wear is the leading concern • Best for grinding flat surfaces with limited contours 	<ul style="list-style-type: none"> ● Ferrous ○ Non-Ferrous ◐ Stainless ● Plastics ◐ Exotics ○ Metal Matrix ◐ Composites
